

The hot lunch report....

The Hot Lunch Program ran smoothly through the month of October. We had a special Halloween menu added and a couple of classes who had pizza parties on Halloween day so they did not order hot lunches. Aside from Halloween, we are averaged approx 160-180 meals per lunch. Our profits for Lunch Lady lunches were \$1077.30. We also added a pizza day before fall break which was very well received and we had 306 pizzas ordered for a profit of \$448.50.

Over the next month, we hope to iron out a consistent location for setup and distribution of the lunches so the Leaders know where to go to pick up their bins. We have used the empty kindergarten classroom and the gym but have found those are regularly being used by classes.
